## Foreword

This Mauritian Standard was drawn by the **Food Products Standards Committee (FPSC)** through its **Subcommittee on Edible Fats and Oils**. It was approved by the Standards Council on 28 March 2012 and was notified in the Government Gazette on 28 April 2012\*.

This second edition incorporates a full revision of the standard. It cancels and replaces the first edition (**MS 112:1998**) which has been technically revised.

In preparing this standard the following was used as working document:

**CODEX STAN 210: 1999**      *Codex Standard for named vegetable oils*

Acknowledgement is made for the use of information from the above publication.

\*General Notice No 979 of 2012

## Standard for soya bean oil / soybean oil

### 1 Scope

This Mauritian Standard specifies requirements for soya bean oil\* (soybean oil) obtained from the seeds of *Glycine max* (L.) presented in a state for human consumption.

\* 'Soya bean oil' is referred to as 'The oil' throughout the document

### 2 Normative references

The following referenced standards are recommended for the application of this standard. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced standard (including any amendments) applies.

<b>MS 30</b>	<i>Labelling of prepackaged foods</i>
<b>Food Act</b>	
<b>IUPAC 2.201 or ISO 660:2009, AOCS Cd 3d-63 (03)</b>	<i>Determination of acidity</i>
