Specification for  
Women's Raincoats

PREVIEW

## FOREWORD

This Mauritian Standard was drawn up by the Fibre Standards Committee through its subcommittee on raincoats and was approved by the Standards Council on 20 June 1991. It was notified in the Government Gazette on 2 August 1991\*.

In preparing this standard reference was made to the following.

1	ISO 472**	Plastics - Vocabulary
2	ISO 1382**	Rubber - vocabulary
3	ISO 2060**	Determination of linear density of yarn
4	BS 2062**	Determination of breaking load and elongation of yarn
5	BS 1903**	Glossary of terms used by the clothing industry
6	BS 3870**	Stitches and seams: Part 1 and Part 2
7	CKS 288**	Specification for women's raincoats
8	SABS Method 278**	Sewing stitches per unit length
9	MS 21**	Standard atmospheres for conditioning and testing of textiles
10	MS 71**	Specification for coated fabrics

**Acknowledgement is made for the use of information from the above publications.**

\*General Notice No. 1054 of 1991

\*\*These documents have been referred to in the standard.

## SPECIFICATION FOR WOMEN'S RAINCOATS

### 1 SCOPE

1.1 This Mauritian Standard specifies requirements for material, cut, make and trim of waterproof raincoats for women. It does not cover the requirements for shade, general appearance and feel of the raincoat.

### 2 DEFINITIONS

For the purpose of this standard the terms used by the clothing industry given in BS 1903 and the definitions given in ISO 472 and ISO 1382, apply together with the following.

2.1 **Lot:** A collection of raincoats of the same type, grade and size manufactured under conditions presumed to be uniform.

2.2 **Defect:** Any non-conformance of an item with specified requirements.

2.3 **Nominal:** Subject to the tolerances normal to good manufacturing practice.

### 3 MATERIALS
