8	Tests	7
8.1	General	7
8.2	Air pressure test	7
8.3	Proof pressure test	7
8.4	Operating test for pressure regulating device	7
8.5	Safety pressure relief device test	7
8.6	Bursting pressure test	7
8.7	Security of lid	8
8.7.1	Test for security of lid under pressure	8
8.7.2	Test for coil spring - Loaded mechanism	8
9	Sampling and compliance with the specification	8
10	Marking and instructions	9
11	Instructions for use	10
<b>ANNEXES (Methods of Test)</b>		
A	Capacity test	12
B	Test for temperature responsive safety pressure relief device	12
C	Temperature test for cookers without temperature responsive pressure relief device or fusible relief device	12
D	Proof pressure test	13
E	Operating test for pressure regulating device	13
F	Test for safety pressure relief device	13
G	Bursting pressure test	14
<b>APPENDIX A</b>		
A.1	Sampling	15
A.2	Lot Inspection plan	16

## Foreword

This Mauritian Standard was drawn up by the Miscellaneous Consumer Products Standards Committee through its Subcommittee on Pressure Cooker and approved by the Standards Council on ..... It was notified in the Government Gazette on .....\*

In preparing this standard, assistance has been derived from the following:

- |                |   |   |
|----------------|---|---|
| BS 1746:1987   | - | Specification for Domestic pressure cookers   |
| BS 6743:1987   | - | Specification for performance of handles and handle assemblies attached to cookware |
| IS 2347:1995   | - | Domestic pressure cookers - Specification   |
| IS13395:1995   | - | Specification for performance of handles and handle assemblies attached to cookware |
| SABS 1040:1997 | - | Specification -Pressure Cookers for domestic use.                                   |

Acknowledgement is made for the use of information from the above publications.

\*General Notice No. .... of ..... 1998

## DRAFT MAURITIAN STANDARD SPECIFICATION FOR DOMESTIC PRESSURE COOKERS

### 1 SCOPE

This Mauritian Standard specifies the materials, construction, operation and safety-related performance requirements for domestic pressure cookers. This standard does not include any requirements with respect to the cooking performance of domestic pressure cookers.

### 2 NORMATIVE REFERENCES

2.1 The following standards contain provisions which, through reference in this text, constitute provisions of this Mauritian Standard. At the time of publication, the editions indicated were valid. All standards are however subject to revision, and parties to agreements based on this Mauritian Standard are encouraged to investigate the possibility of applying the most recent editions of the standards indicated below. Information on currently valid national and international standards can be obtained from the Mauritius Standards Bureau.

BS 1449-Part 2:1983	Steel plate, steel and strip Part 2 - Specification for stainless and heat -resisting steel plate, sheet and strip
BS 1501-Part 3:1990	Steels for pressure purposes: plates, sheet and strip Part 3 - Specification for corrosion - and heat - resisting steels
BS 6743:1987	Specification for performance of handles and handle assemblies attached to cookware.
BS /EN 573-3:1995	Aluminium and aluminium alloys - Chemical composition and form of wrought products
IS 6527:1972	Stainless steel wire rod
IS 7466:1974	Specification for rubber gaskets for pressure cookers
IS 4536 - (Part 3):1987	Specification for composite bottom stainless steel cooking utensils - Part 3 - Copper clad
MS 128:1998	Performance of handles and handle assemblies attached to cookware - Specification
